A. K. HOLT,

YOUNG AMERICA. A GENTS wanted in every county in this and adjoining States to sell the above new and improved CORN AND COB MILL. To all such, a rare chance to

make money will be offered. Exclusive State and County privileges will be disposed of on unusually far terms, by FARMERS AND STOCK RAISERS,

I offer you a Corn and Cob Mill unsurpassed in the Union, and which cannot be superceded by past or future inventions. It is the very Mill which every Farmer and Stock Baiser should have; it will crush from 8 to 10 bushels Corn and Cob per hour, with one horse, is easily fitted up and managed; weighs 840 lbs., and as all contact of the or and managed, weighs one loss, and as an echiact of the grinding surfaces is prevented, will last any farmer an ordinary lifetime. I speak thus of its durability because the same principle has been fairly tested in the old Bark Mill, Who is it that wants

for one month, and if it don't give complete satisfaction, to return it? If there be any man thus disposed, let him now speak. Satisfaction is warranted in every case, or the money will be refunded. This Crusber can be attached to by will be rendered in the most convenient Mill south of Mason's and Dixon's line. All other Crushers now in the south require too much power, or will soon wear out. According to THE LAWS OF NATURE

a Corn and Cob Mill which admits of a lateral or wabbling motion, will, necessarily, soon wear out; all other Crushers are amenable to this grand objection, and the Proprietors dare not dispute it. In the construction of "Young America," I have gained power, and I defy contradiction; I have ica, I have gained power, and I dely contradiction; I have lessened friction, and I challenge one word to the cantraty; I have prevented a wabbling lateral motion, and all are compelled to acknowledge it; therefore, I assert that it is far superior to any other Mill. I am now selling this Tea

EVERY MAN HIS OWN MILLER EXCELSIOR CORN AND COB MILL.

SOMETHING ENGIRELY NEW. Patented by Charles Leavitt, February 27th, 1855.

Patented by Charles Leavitt, February 27th, 1855.

THE above cut represents a recent and valuable improvement by Charles Leavitt, in PORTABLE GRAIN MILLS, adapted to crushing Corn and Cobtogether for stock, and granding Meal for family use. Mr. Leavitt being the original inventor of this kind of a machine, and from long experience with cast iron corn-crushers, finding that all of them were liable to objections, the most formidable of which was their want of durability or liability account to wear out, he again went to work with the view of removing the objectionable features. In February, 1855, he succeeded in outsiding letters patent for the "Exceptior Corn and Cob Mill," and now has the satisfaction of being able to present the above Mill to the farmers of the United States, standing as it does at the head of the list of Corn-Crushers, combining the good qualities of all, list of Corn-Crushers, combining the good qualities of all, exempt from the defects of any, and possessing many new, valuable, and distinguishing features, of which all others

We have remarked that the great and heretofore insurmountable objection, urged with so much force against custivon mills, was their palpable deficiency in durability. To remove this objection was a desideratum long sought for, and which has been at length attained in the "Excelsion Mill" only, the grinding surface of which consists in sior Mill" only, the grinding suitage of which consists in moveable rings, made in hard and superior metal, and which, when worn out, can be replated in five minutes by new rings, at a cost of \$3, which makes the mill as good as new, there being no other part limbe to wear out. Two setts of grinding rings accomp by each mill, making it equal to two mills. This pectarity, possessed by no oner mill, should not be out and a particular at it insures durability, a consideration of an others the most important.

Another interesting feature in this mill, and or s which we think will secure for it a just consideration and erit, is in its being provided with a meal conductor and conductor and the meal is discharged into a business, instead of being scattered around the mill, as as ordinarily the

This mill having been fairly tested with other mills at the late Fair of the Maryland Agricultural Society, at the Ohio State Fair, and elsewhere, at all of which it established its superiority, we do not hesitate emphatically to pronounce it pre-eminently superior to any and all other corn crushers of the day, independent of its moveable grinding rings, which feature of itself makes the distinction between the other corner where so broad tween the "Excelsior" and all other corn-crushers so broad as to render a comparison superfloous; and, as an evidence of our sincerity, we hereby anacunce that we will give a silver cup to say Corn Crusher that can be produced, of the same size and same length of lever, that will grind finer and faster than the Excelsior, at some time and place to be agreed upon.

Capacity of granding corn and cobs with two horses from 15 to 20, and with one horse, from 8 to 10 bushels per

Cost of Running the Excelsior Mill for Ten-

Compared with that of other Mills in use at this time. It has been proven by experience, and contrary to gen eral expectation that cost from Mills for grinding Corn. eral expectation, that east from Mills for grinding Corn, etc., to do the work properly, will not last more than two years. In view of this last, the inventor of the Excelsior Mill has labored to produce a machine that will be more economical, and at the same time more effectual. The following estimate will show the cost of grinding with each of the Milis now in use for ten years: Cost of Excelsior Mill. \$50, including an extra set of

Cost of Excessor and, \$50, increasing an extra set of Grinding Plates, which makes it good for loar years. Cost of repairs for six years, \$9, making for ten years, \$39. Cost of common Mills, without any extras, says \$44.—Cost of running the same for ten years, supposing that the Mill will last as long as the Excelaior Mill without repairs, say to be renewed every two years, which in this case must be done at the expense of a new machine each time, \$176, making for the teu years a cost of \$220. This same rale will apply to any and all of the Mills now in use which come in competition with the Excelsior Mill. Farmers and others in want of mills for grinding Corn and Cob, etc., will see by the above estimate that the Ex-celsior Mill can be used for the purpose required at less than one third the expense of any other Mill now in use. This Mill may be put up in a few minutes by any ordi-nary farm hand, printed directions for which accompany

each Mill.

The undersigned having purchased the right to the above Mill in Middle Tennessee, take pleasure in introduc-ing it to the public, believing it to be all that is claimed for it, and well worthy the attention of every Farmer,

STOCKTON'S Patent Straw Cutter. THE multiplicity of Straw Cutters already before the public, a large proportion of which having failed successfully to stand the test of thorough trial, and having failed far short of the representations of the venders, as well as the expectations of the purchasors, a general distrust has been created in the public mind for all machines of this description. Hence it becomes a consideration of the utwest importance before the general introduction of a machine, cone rung which there is so much doubt, and connected with which there have been so many failures, that it should first have been subjected to the most thorough and critical test, and its claim to merit clearly established beyond a doubt. This machine has now been in existence upwards of twelve months, during which time established beyond a doubt. This machine has now been in existence upwards of twelve mouths, during which time it has been submitted to the reverest tests, and has under gone modifications and alterations, with a view of bringing it as near perfection as possible. It is now complete, and presented to the public in the full confidence that it will meet the wants of the farming community, and sustain the high reputation it has already obtained, and the opinions formed of it by all who have used it.

it is very beneficial in alleviating the complaints for which it is recommended.

Our Agent in Pickens District, S. C., Mr. S. R. McPall, assures us that he uses it with great benefit in his own family and recommends it to his neighbors." He gives an instance of a negro woman in his vicinity, who had been suffering with disease of the Langs for years, attended with sever cough, who was relieved by the Liverwort and Tar.

Such are the good reports we hear of this Medicine from all parts of the South. For a report of the surprising cures than performed in the Western and Northern and Eastern States, we would invite the suffering gatient to read the pamphlet which accompanies each bottle. A ND most beautiful and magnificent addition of Lots ever made to the city of Nasaville.

In awarding the palm of Real Estate Supremacy to Warkty's Magnificent Addition to Nashville, we by no means desire or intend to disparage any portion of our beautiful city. On the contrary we assert without fear of successful contradiction, that the grounds around Nash-ville are more beautiful than those of any other city is America. While hereto fore examining the grounds around the city, we found it difficult to determine which were the the city, we found it dilicult to determine which were the most beautiful, as each additional examination reemed more pleasing to the eye than the previous. But at the late May-Day Celebration by the Pupits of the Nashville High School, we made a thorough examination of Mr Sam'l Watkin's grounds, and became satisfied they were the most beautiful we have ever seen. The STREETS and Alexander and the late week and most pleasantly MeAdamined and the late week. trrs are all most elegantly McAdamized and the Lots most bandsomely laid off. The building sites undulating buca-tifully towards the streets and alleys. none equal this wonderful preparation. Only three years have shaped since the discoverer (who spent a decade lu studying, experimentalizing and perfecting it) first introduced it to the public, and it is already recognized by the most eminent physicians is all parts of the country to be the most surprising and effective remedy for certain diseases of which they have knowledge.

All other compounds or syrups of the root have hitherto failed to command the sanction of the facility, because, on being tested, they have been found to contain nanionalingre, dients, which neutralize the good effects of the sarsaparilia, and eltentimes injure the health of the patient. It is not so with Hurrey's preparation.

This is the pure and genuine extract of the root; and will, on trial, be found to effect a certain and perfect cure of the following complaints and diseases:

Affection of the Bone, Habitual Costiveners, Desnifty, Diseases of the Kidneys, Liver complaint, Piles, Frepelas, Paimonary Diseases, Fem. to Irregularities, Scrolnia, or King's Evil, Realth.

Dysepsia Pies, Primonary Diseases, Forn to Irregularities, Scrottin, or Kin, 's Kvil, Syphilis,

Pistoia. Syphilis, Scrottam, or Ain, 2 Syri, Pistoia. Syphilis, And \_it Pistoia the Skin. Scalles unring the above, it is also known to be a great and powerful tonic, purifying the blood and invigorating the system. In short, it is without exception, in the cases mentioned and its general effect on the system, the most efficacion, as it is most describe, remody of the ago. It is aircady extensively used throughout the country, and is fast obtaining an European reputation. The instances of cures it has effected are daily coming to the propertor's knowledge, and he has no hesitation in recommending it to one and all who desire to procure relief trom suffering. One bottle being tried, its effects will be toe apparent to admit of further doubt.

In cases of disordered functions of the liver, causing headache, indigestion, costiveness, and the great variety of disoases that follow, they are a surer remedy than any other. In all cases where a purgative remedy as required, I confidently recommend these Pills to the public, as superior to any other I have ever found. They are sure in their operation, and perfectly sife, qualities which make them an invaluable article for public use. I have for many years known your Cherry Pectoral as the best cough medicine in the world, and these Pills are in no wise inferior to that admirable preparation for the transment of diseases."

"Dr. J. C. Aven — Dear Sir: I have been afflicted from my birth with Scrofula in its worst form, and now, after twenty years' trial, and an unfold amount of suffering, farabeen completely cured in a few weeks by your Pills. With what feelings of rejoicing I write, can only be imagined when you realize what I have suffered, and have long.

"Your Pills have cured me from a bilious attack which arose trem derangement of the laver, which had become very serious. I had failed of any relief by my physician, and from every remedy I cauld try, but a few doses of your Pills have completely restored me to health. I have given them to my children for worms, with the best effects. They were promptly joured. I recommended them to a frend for costiveness, which had troubled him for months; he told me in a few days they had cured him, You make too best medicine in the world, and I am free to say so."

Kead this from the distoguished Solicitor of the Supreme Court, whose brilliant abilities have made him so well known, not only in this but the neighboring States—

"Sir: I have great satisfaction in assuring you that myself and family have been very much benefitted by your medicines. My wife was cured two years since, of a severe and dangerous cough, by your Cherry Pectorn, and since then has enjoyed perfect bealth. My children have several times been cured from attacks of the influenza and croup by it. It is an invaluable remedy for these complaints. Your Ca-
